Getting Started

Moodagent on mobile:

- Download the Moodagent app here:

- Follow the on-screen instructions to create your account.

Tell us what you like to listen to. You can choose from the suggested artists or search for anyone you want, as long as you pick at least three. You might wanna pick even more – this will be the foundation of your personalized experience on Moodagent.
- Start listening. The more you listen, the more you ❤️, the more moodagents you create, the better your personalized recommendations will become.

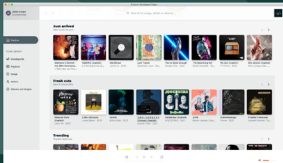

Moodagent on desktop:

- If you already have a Moodagent account, continue to the next step. If not, follow the steps above to create your account using our mobile app.

- Download the Moodagent desktop app for Mac or Windows here:

- Install as directed on your device.
- Launch the desktop app and log in with your email and password. Hint: If you created your account using Apple or Facebook, you never had to choose a password. Just click "Forgot password" to get a verification code and enter that along with your chosen password.
- Start listening. Now that you're rocking the desktop app, you can explore and discover at the office, at home, or when your phone just needs a break.
